“proven reliable bathroom solutions”

# MANROSE®

## PRO-SERIES

**HEAT 'n VENT** The stylish Pro-Series heat/fan/light units have been designed to complement your bathroom decor. With a 40% increase in performance\* and integral temperature interlock, Manrose Heat 'n Vent continue to lead the market in quality heat/fan/light bathroom solutions.

- High efficiency centrifugal fan with unique anti-condensate design feature
- Tiltable halogen downlight, direct light where it's needed
- Complete system with duct, grille and wall switch included
- Easily installed in confined spaces.
- Fully complies to AS/NZS 60335.2.80.

\*Both upgraded units have 40% increased performance compared to earlier models.

**5 Year Warranty**

**EXTRACT-a-LITE** Manrose Pro-Series Extract-a-Lite combines high efficiency ventilation with a quality light fitting in a low profile diffuser that will appeal to the discerning homeowner. The safety extra low voltage (SELV) transformer allows the system to be positioned above your shower or bath to draw steam directly from source.

Manrose Pro-Series Extract-a-Lite 150mm\*

\*Designed for use directly above the shower. FAN2034 pictured.

- Designed for today's modern bathrooms in either 125mm or 150mm models.
- High efficiency in-line fan
- Easily installed in confined spaces.
- SELV Transformer included
- Fully complies to AS/NZS 60335.2.80.

**5 Year Warranty**

**2 HEAT 'n LIGHT** If you require additional lighting then the Manrose 2 Heat 'n Light offers the comfort of two heat lamps plus a centre light. Use on it's own or add a Manrose extraction fan for a complete heat/light and ventilation solution.

- Attractive low profile finish.
- Easily installed in confined spaces, even between floors.
- Heat lamps individually ice/water splash tested.
- Thermal safety cut-off to prevent the unit from overheating.
- 100mm - 150mm duct outlet included.

**5 Year Warranty**

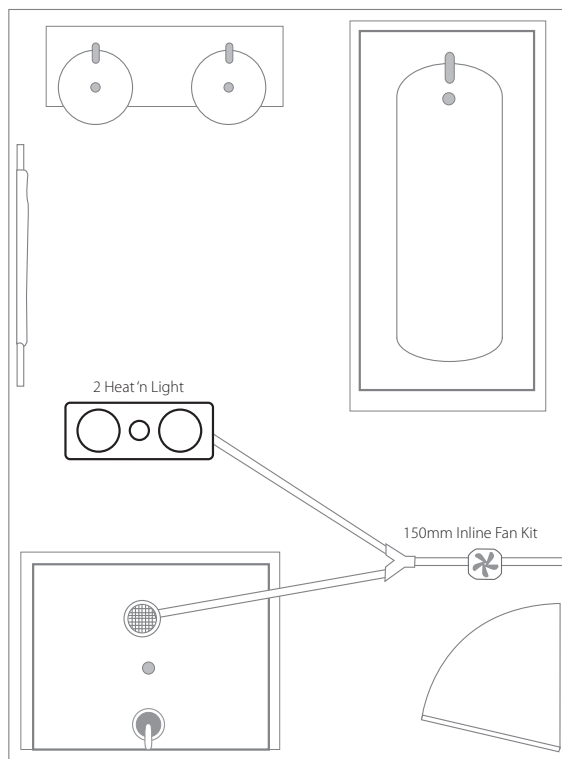

### Manrose Classic 2 Heat 'n Light

Designed for use on its own or add to an extraction fan for a complete solution.

Add a Manrose 150mm In-line fan kit and Y-Branch for a complete bathroom heat/light and ventilation solution.

- Manrose Pro-Series Shower Fan Kit SFLP150.
- Manrose Classic Shower Fan Kit SF150.

For a custom designed solution Manrose have all the components required, from in-line fans to ducting, Y-branches and grilles.

Technical drawing represents a typical layout incorporating additional components to enable this system to be connected to an extraction fan.
